

Help Our Country Prepare for Emergencies!

Volunteer to be an actor in an emergency preparedness drill!

2018 Emergency Repatriation Exercise

What is Emergency Repatriation?

Emergency repatriation is when the U.S. government supports American citizens visiting or living abroad to quickly and safely get back to the United States in the event of an emergency, war, or other crisis abroad. Volunteer "actors" are needed to play returning citizens to test the process and services for supporting Americans when they arrive back in the U.S. at Ontario International Airport.

It'll Be Fun!

Show off your acting skills! See a federal operation and Ontario Airport from behind the scenes! Bring along your friends, family, grandparents, kids, and service animals (sorry, no pets)! Bring a few clothing accessories (hat, glasses, jacket) to change your appearance during the exercise and then role play a few different people with unique backgrounds and personalities.

It's Easy to Participate!

We'll provide scripts explaining who you'll be portraying and answers to all the questions that may be asked.

Free parking and lunch will be provided!

You'll Make an Important Difference!

You will provide feedback on how well your needs were met which will improve the preparation for any real repatriation emergency.

Register Today:
