Mass Care is an essential  
component of disaster relief!  
Sign-up today!

The American Red Cross Shelter Fundamentals course is a basic level course that introduces the guidelines and procedures for setting up, running and closing a shelter during a disaster.

Referencing shelter checklists, participants will work on a case study that takes them through four of the six phases of the Sheltering Process: Resourcing, Opening, Operating and Closing.

Classroom participants must attend the entire course and complete the classroom activities to earn a course certificate.

To register, please email your name, CERT affiliation and cell phone number to Erin Fox at [erin.fox@redcross.org](mailto:erin.fox@redcross.org).
